SWISS ASSOCIATION OF AERONAUTICAL SCIENCES

The European Rotorcraft Forum is one of the premier events in the rotorcraft community's calendar bringing together manufacturers, research centres, academia, operators and regulatory agencies to discuss advances in research, development, design, manufacturing, testing and operation of rotorcraft.

This Forum will be the 48th in a series of events, which take place annually across Europe, rotating around the United Kingdom, Germany, France, Italy, the Netherlands, Russia, Poland, and now Switzerland. The first ERF was held in Southampton, England, in 1975, and the most recent in Glasgow, Scotland, UK, in 2021, although online.

The 48th European Rotorcraft Forum will be organised by the Centre for Aviation (ZAV) of ZHAW, under the auspices of the Swiss Association of Aeronautical Sciences (SVFW), and planning is underway for the Forum to take place in Winterthur, Switzerland on 6-9 September 2022.
